## EDUCATION

### KIET Deemed to be University

2025 – Present

B.Tech in Computer Science and Information Technology – SGPA: 8.18

Ghaziabad, Uttar Pradesh

#### Relevant Coursework

- Data Structures
- Operating Systems
- Cybersecurity
- Systems Programming
- Computer Networks
- Computer Architecture
- C/C++ Programming

## PROJECTS

### Faculty Allocation System | Python, Pandas, openpyxl, Tkinter

2026

- Automated faculty-subject allocation for 40+ staff and 80+ subjects, replacing a manual spreadsheet process.
- Cut allocation time from ~28 hours to under 60 seconds — a **99.94% reduction** (~1,680x speedup).

### File Integrity Monitor | Python, Hashing, JSON [GitHub]

2026

- Built a cybersecurity tool to detect file tampering using cryptographic SHA-256 hash comparison.
- Stored baseline file information in JSON and compared later scans to detect modified files.

### Bluetooth Jammer and Wi-Fi Deauthor | ESP-32, NRF24L01

November 2025

- Hardware – ESP32 dev board, NRF24L01 transceiver module, and supporting essentials.
- Explored 2.4 GHz wireless interference concepts and Wi-Fi deauthentication behaviour in a controlled setup.
- Showcased at Innotech'25, an inter-institute level competition.

## TECHNICAL SKILLS

|                          |                                                                                          |
|--------------------------|------------------------------------------------------------------------------------------|
| Languages:               | Python, C, C++                                                                           |
| Technologies/Frameworks: | Linux (Ubuntu, Kali), Git, GitHub, ESP32                                                 |
| Cybersecurity:           | Basic Cryptography, Hashing, File Integrity Monitoring, Wireless Security Concepts, CTFs |
| Interests:               | Open Source, OSDev, Low-Level Programming, Embedded Systems, Research                    |
| Competitive Programming: | Active participant on Codeforces, CodeChef                                               |

## OPEN SOURCE

### GSSoC and SWOC

2026

Open Source Contributor / Participant

Remote

- Exploring open-source contribution workflows including Git, GitHub, issues, pull requests, and documentation.
- Contributed to projects related to systems, developer tools, and backend utilities.

## LEADERSHIP / EXTRACURRICULAR

### MythX

April 2025

Core Member

KIET Deemed to be University

- Organised a cybersecurity summit including CTFs, expo, and speaker sessions.
- Managed a community of 1300+ active players.
